## A Card.

We take this method to inform our patrons and friends that from the 1st of September on we will no longer occupy the store-room of No. 505 Seventh street. We have rented the large and spacious store-room under Odd-Fellows' hall, 421 Seventh street, which we will open about September 4th. Our friends are respectfully invited to call and inspect the large and varied stock which we have on exhibition on our counter. Respectfully, BERNARD &amp; SCHURER, The Popular Clothiers and Tailors.

A mule belonging to N. F. Johnson, of Cecil county, Md., lost his tongue the other day in a rather novel way. He was hitched to a rail on which straw was hauled from the threshing machine. It was necessary to hold a tight rein upon him, and the snaffle bit being well worn, cut his tongue in two as neatly as a surgeon's knife could have done it. He continues to take his food regularly and apparently suffers no inconvenience from the loss of his braying organ.

## A Policeman on Trial.

Officer Dominick C. Connolly, of the Fourth precinct, was arraigned in the Police Court to-day, for an assault on Lorenzo Lucas, on the 17th of August last. The complaining witness exhibited a long jagged half-healed scar on his head, which he said was inflicted by the prisoner without cause while they were on their way to the station house. Other testimony was introduced and showed that he merited all he received. It seems that Lucas is a very desperate young man, and has a habit of making himself extremely disagreeable to his family and the neighbors at times. On the occasion in question he was placed under arrest by Officers Connolly and Lombardy, on complaint of his father, for disorderly conduct. He proved a very unruly prisoner and resisted all the way to the station. Officer Connolly admitted striking him on the head with his baton, but said he only did it in self-defense. Lucas had tripped him up and was kicking him when he used the club. This evidence was corroborated. Lieut. Arnold testified to the release of Lucas on collateral and that he began another row at the house as soon as he reached home. Lieut. Arnold found it necessary to take him back to the station for safe keeping, but before he could secure him, Lucas was about to throw a weight at him when his father wrested it out of his hand. Judge Bundy considered the assault excusable on the part of the officers, and dismissed the case.

## Police Court Notes.

Wm. Coleman forfeited \$10 collateral for an assault on James Young on the 28th inst.

Rachel Levi was acquitted of an assault on Mary Schloberg, who was fined \$5 or 15 days for an assault on Sophia Levi. These two families keep second-hand stores on D street, between Ninth and Tenth streets, and the business rivalry that has always existed between them culminated yesterday in a free fight, in which all the members of both families took part, including the children. The result is shown above.

A colored sporting man named Chas. alias Chub Jackson, was arrested yesterday by Officer Bailey on complaint of George Henry, also colored, who charges that he swindled him out of \$20 by the three-card monte game. In the Police Court to-day the case was continued till to-morrow.

Judge Snell leaves to-night for a month's vacation at his former home in Maine. Justice of the Peace S. C. Bundy will preside over the Police Court in his absence. He began that service to-day and disposed of the few cases that came before him in short time.

## Found Man Bitten.

One of the pound men named Shanklin was badly bitten on the hand this morning by a large and ferocious dog which he had caught and was trying to place in the wagon.

**Washingtonians at Mount Washington.**  
Among the clouds is the appropriate name of a daily paper printed on the summit of Mount Washington. From its issue of Tuesday last we extract the following: Among the arrivals at the Summit House on the 22d instant was D. C. Forney, editor of the *Instant Chronicle*, Washington, D. C. Mr. Forney was accompanied by his wife and daughter, Mrs. W. H. Eby, of Harrisburg, Pa., and Gen. J. W. Starr and wife. The party made a short visit to our office and were as much delighted with the evidence of the progress of "the press" among the clouds as with the other wonderful sights they witnessed on the mountain.

Mr. JULIUS WILLIE in Washington and met against his best time at the fair grounds of the National Association on the 9th of October next.  
Returned summer resorters are as brunette as our drinking water.

## A Chinese Steamship at San Francisco.

By National Associated Press.  
SAN FRANCISCO, CAL., Aug. 31.—The object of the visit of the steamship *Wo Chung*, of the China merchant steam navigation company, is a species of mystery, it being denied by some persons that there is any intention of the Chinese running a line in opposition to the Pacific Mail from Tong Ying Sing. Of the director of the China steam navigation company, who is aboard of the *Wo Chung*, little could be learned except that the present visit was purely experimental. He asserted positively that no definite determination to put on a regular line of steamers had been arrived at, but in conversation he several times inadvertently dropped expressions relating to the future success of the trans-Pacific line. The *Wo Chung* is an iron vessel of 900 tons burden, commanded by a Dane named Peterson and has an iron screw. She brings about 50 tons of rice as freight. She will remain here about seven days, and will carry back any freight that may be entrusted to her. Peterson is authority for the statement that the company has eight idle vessels, all of them larger than the *Wo Chung*, and that they will be put to any use that will result to the profit of the owners.

## A Man who Starved Longer Than Tanner.

By National Associated Press.  
GRAND RAPIDS, MICH., Aug. 31.—Michael Perat, who two months ago conceived the idea that he had a cancer in his stomach, abstained from food until Saturday last, when he died of starvation. An autopsy held yesterday revealed the fact that all the organs were healthy except the brain, which was disordered. Death was from starvation, his abstinence being 23 days longer than Tanner's greatest test.

## Trade with Brazil.

The Charge d'Affaires ad interim of the United States at Rio de Janeiro, in a recent dispatch to the Department of State in commenting upon the trade between the United and Brazil, uses the following language:

"I have observed with much interest and satisfaction the rapid growth of American goods and wares in the markets of Brazil. They are growing in favor constantly, and in the sale of notions, so-called, and household goods the impetus has been great. Importers of American notions are meeting with splendid success. A test of the Westinghouse air brakes took place a short time ago in the presence of His Majesty, the Emperor, and I learn that the agent, a very enterprising gentleman, has received a number of orders. Regular and rapid communication is accomplishing much in the interest of our exports to Brazil."

## Chief Quay's Successor.

LOS ANGELES, CAL., Aug. 31.—A grand council assembled here Saturday to decide upon Chief Quay's successor. Chief Saponari will undoubtedly be the man. He had charge of affairs last winter during Quay's absence in Washington and showed considerable executive ability. Neither he nor any man in the nation, however, is the equal of the late chief. The Commission has accomplished nothing since Quay was first taken sick. Ignatius, of the Southern Utes, is bitterly opposing the treaty. The time in which the treaty must be ratified expires on the 15th of October.

## Recovered by the Police.

Yesterday afternoon Officer Clinton brought to the Navy Yard station a tin box containing three paintings and three pairs of white kid gloves, which he recovered from a colored boy named Wilson Green, living at No. 621 A street northeast, who said he found the box lying against a tree box on Sixth street, near A street. The property is held for identification.

## Inspecting School Houses.

The Commissioners to-day inspected the new Force school house, on Massachusetts avenue near Eighteenth street, and finding everything satisfactory, received it from the hands of the contractor, John H. Howlett. The Peabody building, on Capitol Hill, will be inspected on Thursday.

## Sick in a Police Station.

A woman named Julia Deggs, was arrested on the Navy Yard yesterday for drunkenness, and after she had been at the station house sometime was taken violently sick and had to be removed to the hospital.

## Funeral of a School Teacher.

The funeral of Miss Elizabeth Halslip, formerly a public school teacher in the Second district, who died on Sunday last, took place this afternoon from her late home, on Ninth street. There was a very large attendance of friends.

## A Fine Improvement.

A building permit was to-day issued to George Mackay to erect a four story brick dwelling on Massachusetts avenue, near Eighteenth street, at an estimated cost of \$9,000.

## District Ordnance Stores.

Fifty cartridge boxes were received at the Commissioners' office to-day from Watervliet arsenal, West Troy, N. Y. They are intended for the Union Veteran Company, of the District militia.

## Suit Against Pat Rooney.

By National Associated Press.  
NEW YORK, Aug. 31.—The Irish vocalist, Pat Rooney, entered into a five-year contract with Harry Miner and recently notified the latter that he would no longer play for him. Miner thereupon enlisted the legal services of Howe & Hummel, who brought suit against Rooney and sought an injunction restraining him from performing for any person other than Miner. This motion has just been decided by Judge Beach, who ordered a permanent injunction to be issued against Rooney, by which the comic singer is directed to fulfill the terms of the contract he entered into with Miner. This settles the question which has long been agitated in theatrical circles.

## Gen. Grant Declines.

By National Associated Press.  
CHICAGO, ILL., Aug. 31.—Gen. Grant emphatically denies that he has accepted the presidency of the Vegas Mining Company, but that he has written a letter declining. The General has also declined the invitation to attend the Northwest exposition at Minneapolis on the 1st of September, on account of a previous engagement. Jessie Grant is stopping briefly with his parents on his way to San Francisco to wed Miss Chapman.

## The Burned Steamer.

By National Associated Press.  
DAYTON, Aug. 31.—About eighty of the survivors of the burned steamer *Marine City* reached here this morning. It is now quite clear that the full list of the lost will not be known soon, as the clerk's passenger list was burned. So far as known the drowned are as follows: Martin T. Watson, of Detroit, druggist; Richard Shultz, of Detroit, head waiter; James Griffin, of Detroit, cook.

## British Blockade.

By National Associated Press.  
LONDON, Aug. 31.—A dispatch from Cape Town states that the British ship *Dido* has blockaded the port of Brass, in Guinea, on the west coast of Africa, and will maintain the blockade until the natives restore the oil which they plundered from a ship and cast ashore some time ago. Brass is situated on the river of the same name, which is one of the arms of the Niger.

## Two Human Heads Found.

By National Associated Press.  
ST. PAUL, Aug. 31.—Two human heads were found in a box floating in the lake twelve miles from the city yesterday. They had the appearance of having been in the water about a month. No person is missed in these parts, and there is a mystery about the find.

## The Campaign in Illinois.

By National Associated Press.  
BELLEVILLE, ILL., Aug. 31.—The democracy opened the campaign here with a mass meeting yesterday and last night. Hon. Lyman Trumbull, candidate for governor, spoke in the afternoon and Gen.
